Clinic Overview

360 Concussion Care is a multi-disciplinary concussion clinic, providing concussion rehabilitation services. We provide physician-led, interdisciplinary, evidence-based patient care and place a high emphasis on patient coaching and education. We operate as a learning health system, working collaboratively with leading hospitals and universities to generate the research and learnings, through our patient care, that will continue to improve concussion prevention and treatment.

We opened our first clinic in Ottawa in September 2020, and will be opening our second clinic in Toronto in September 2021, and our third in Mississauga in fall 2021.

Role Description

We are seeking skilled physicians to join our team of concussion experts. In this role you would work with a varied patient demographic presenting with a range of concussion/post-concussion symptoms (PCS) and you would lead an integrated interdisciplinary team to help patients progress through their recovery.

Work could be part-time, flexible hours, with a minimum commitment of 1 day per week.

Candidate would be trained and mentored by an experienced team of globally recognized concussion researchers and health care professionals (medical doctors, occupational therapists, physiotherapists, and psychologists). In addition to clinical practice, the candidate would have the ability to engage in research.

Candidates must have practice experience delivering care to patients who have experienced a concussion (children and/or adults), and/or an interest in pursuing further continuing education.

On our team, we currently have General Practitioners, Emergency Medicine Physicians, Pediatricians, and Neurologists.

Candidate must be an active independent practice member of, and in good standing with, the College of Physicians and Surgeons of Ontario (CPSO).
